VISIT OF MORGENTHAU WILL BE BIG EVENT

TO RELATE STORIES OF TURKISH ATROCITIES.

Speaks Tuesday Night—War Work Campaisn Approaches Noisy Beginning.

PLEASE BLOW YOURSELF; EVERYBODY'S DOING IT When?* On Thursday, Nov.

Time? 11:50 a.m. to 12 noon. How long? Only ten minutes. Why? Pure patriotism. Will you, as one of the little pleces of co-operation we shall ask, instruct your engineer now, while the matter is in your mind, to turn the steam whistle loose to signalize the opening of the campaign next Thursday at the time named above?

above?

If you can't keep it going continuously for so long a time, please start when the others do, and then give one long blast for

and then give one long blast for every star on your service flag—one hearty toot for every man formerly in your employ who is now serving and defending you on land or sea.

The lid must be lifted off. Personally, you may not approve, but we can't consult every one, nor change plans, at the tail end of a campaign. We want such a racket raised that the money will be raised, too. We want every activity to stop so that there's nothing else to do in those ten minutes, than to co-operate in going over the top. We'll do it in ten minutes—while other cities tolf for a top. We'll do it in ten minutes
—while other cities toll for a
week. Isn't ours the better plan?
Suggestions cordially invited and whole-souled co-operation expected.

Letters similar to this one have been sent out to managers of every industrial concern in the city of Chattanooga by Paul J. Kruesi, general chairman of the united war work campaign.

man of the united war work campaign.

As a result Mr. Kruesi expects to hear simultaneously every factory whistle blow for fen minutes on next Thursday, Nov. 14. In addition to this he has called upon the pastors to have the church belis tolled on this day also, announcing the opening and closing of the war work campaign.

Great preparations are in store for the campaign, but by far the biggest thing and the one that will interest the Chattanooga people more than anything else is the big mass meeting planned for next Tuesday night at the Pilgrim Congregational church, at which ex-Ambassador Henry G. Morgenthau was formerly ambassador to Turkey from the United States, and while there it is said that he received an astonishing revelation of the ideals and aims of the German government previous to the war, and later lived through a period of atrocities committed by the Turkish population, which he declares are unspeakable. While in Chattanooga he will relate some of the HunTurk cruelties which will prove of a startling nature.

German sailors at Kiel have started a revolt which has spread through Schleswig-Holstein, long restive under Prussian rule. The events in the north speed the movement for a new south German state composed of Bavaria, Wuert-temberg and Baden and that portion of Austria which is German. These revolt areas are ruled horizontally on the map. Vertical ruling represents Prussia and the states which she will dominate if there are no accessions to the ranks of the revolutionists. Saxony is expected to follow the lead of Bavaria and its neighbors. Alsace and Lorraine and that portion of Germany which is Polish, left white on the map, may already be considered separated from the empire by the signing of the armistice. AMENDED BILL IN HOGAN. CUMMINGS CASE.

Facts Alleged Result of Recent Audit Conducted in County Judge's Office.

Permission was granted Saturday morning by Chancellor W. B. Garvin for the filing of an amended bill to the original bill of J. H. Hogan et al against Hamilton county, Judge Will against Hamilton county, Judge Will Cummings and various local banks which was filed some months ago.

Judge Floyd Estill, counsel for the complainants, explained to Chancellor Garvin that the reason he wished to file an amended bill was that there were facts not known at the time of the filing of the original bill which the filing of the original bill which had since come to light through the audit of C. S. Petersen. The original bill, it will be remembered, was regarding the deal made in 1913 in which it is charged Judge Cummings sold \$600,000 of bonds to the defendant banks, and that these bonds were sold to these defendant banks at a discount of 9 per cent., or \$54,000, and that the payment of the discount was in violation of the acts authorizing the issu-ance of these bonds, in that the acts provided that they should not be sold for less than their par value,

Judge Estill, in asking permission that the amendment be filed, charged that the whole scheme was one to de-

First: That the contract between Judge Cummings and the banks for the sale of these bonds at a discount was made prior to the meeting of the quarterly court at its regular term in July, 1913, and that this is evidenced by the fact that the subscription for this bond issue by the banks was dated July 7, 1913, and on the same day the county court met.

Second: That in order to conceal from the tappayers the fact that these bonds were being sold at a discount, the county court on July 7, adopted a resolution authorizing the county Judge to borrow \$600,000,000. First: That the contract between Judge

were being sold at a discount, the county court on July 7, adopted a resolution authorizing the county Judge to borrow \$600,000.00

Third: That under the authority of this resolution Judge Cummings executed the county's notes to these three banks, aggregating the sum of \$600,000,00, but that no money was obtained on these notes; that at the time of the execution of these notes the county judge issued the county's warrants, aggregating the sum of \$54,000.00, payable to these banks, for interest on the \$600,000.00 for a period of eighteen months.

Fourth: That after the meeting of the quarterly court in an adjourned session on Aug. 4, when the bid of the banks for these bonds was accepted the bonds were delivered, but that the proceeds of these bonds was accepted the bonds were delivered, but that the proceeds of these bonds were not covered into the treasury, but was paid to the county in installments of \$50,000 a month.

Fifth: That this note transaction was colorable and a pretended one, and done for the purpose of concealing from the taxpayers the fact that a discount was being paid on these bonds.

Sixth: That \$550,000.00 of these bonds were issued and sold for the purpose of paying the county's floating indebtedness, and that instead of receiving the money to pay this indebtedness the hanks continued to use this money, paying only installments of \$50,000 a month, and that in the meantime the county was paying interest on its floating indeptedness of \$550,000.00, paying interest on these pretended notes for \$600,000,00, on which no money was obtained, and paying interest on the bonds themselves.

Seventh: That these interest warrants aggregating \$\$4,000.00 were paid out of the Grammar school fund, which was the proceeds of a bond issue of \$100,000 authorized by the Act of 1917.

Eighth: In addition to the relief prayed for in the original bill—that is for the recovery of its deficiences.

Ninth: The amended bill alleges that since the original bill was filed.

FATAL ACCIDENT

Clinton Mullens Instantly Killed and Brother Perhaps Fatally Injured.
When the horse hitched to a delivery wagon belonging to the East Lake Coal and Grocery company became frightened and ran away, Clinton Mullens, aged 13, was killed and his younger brother, John, aged 9, serious ly injured, sustaining a fractured skull and internal injuries. The boys were employed by the grocery company as delivery boys, working in the afterthat the whole scheme was one to de-fraud the taxpayers of the county un-der the camouflage of a pretended note. The main features of the amended bill filed Saturday morning stopped when the wagon struck a telephone pole. The younger box was thrown out upon the pavement on his head as the wagon struck the pole.

The accident occurred on a street near the school building. The wagon careened around a corner, throwing Clinton, the eldest boy, out. His foot caught in the front wheel and he was dragged for some distance, his head being better at the corner to the cor dragged for some distance, his head heing beater on the pavement and death resulting before an ambulance could arrive. John held on until the telephone pole was struck. An ambulance was called and a record run was made to the scene of the tragedy and the boys hurried to Erlanger. Clinton was killed almost instantly. The hospital reported Saturday morning that despite his grave injuries, John was doing as well as could be expected and that his chances for recovery were good.

The boys lived with their parents, Mr. and Mrs. W. S. Mullens, on Forty-first street, in East Lake. Mr. Mullens has for some time been uneasy about the young boys driving the horse and made them promise to give up r work Friday night, but before they could make good their promise the tragedy occurred.

SUIT DISMISS - D

Judge Sanford Rules That Adoption Clay Machinery is Not invention. According to a ruling of Judge Sanford reached Chattanooga, the adaptation of a clay-cutting machine, used to make bricks, to one which cuts dough in the process of making crackers does not constitute an original invention. The case, specifically, was that of J. H. Day & Co., of Cincinnati, vs. the Mountain City Mills company, of Chattanooga, and the Thomas L. Green company. of St. Louis. The plaintiff's suit was dismissed and costs of the court charged to him. The suit grew out-of the use of the idea by the defendant companies, the plaintiff claiming infringement of patent rights.

CATARRHAL DEAFNESS AND HEAD NOISES

Tells Safe and Simple Way to Treat and Relieve at Home.

If you have catarrh, catarrhal deafness or head noises caused by catarrh, or if phlegm drops in your throat and has caused catarrh of the stomach or bowels you will be glad to know that these distressing symptoms may be entirely overcome in many instances by the following treatment which you can easily prepare in your own home at little cost. Secure from your druggist 1 ounce of Parmint (Double Strength). Take this home and add to it ½ pint of hot water and a little granulated sugar; stir until dissolved. Take one tablespoonful four times a day. An improvement is sometimes noted after the first day's treatment. Breathing should become easy, while the distressing head noises, headaches, duliness, cloudy thinking, etc., should gradually disappear under the tonic action of the treatment. Loss of smell, taste, defective hearing and mucus dropping in the back of the throat are other symptoms which may often be overcome by this efficacious treatment. It is said that nearly ninety per cent. of all ear troubles are caused by catarrh and there must, therefore, be many people whose hearing may be restored by this simple, harmless, home treatment.—(Adv.)

PPROSPECTS FOR NEW **AUDITORIUM GOOD**

AUTO CLUB GETS BEHIND PROJECT.

Another Thing Auto Club Wants Is a New Board of High-

way Commissioners.

Chattanooga may yet have an auditorium, and that very soon. The second important organization to live up behind the project of erecting the structure as a memorial to live up the war is the Chattanooga Automobile clib. At its meeting Thursday aight the proposal originated by the Kiwanians was enthusiastically seconded by an almost unanimous vote.

At a recent meeting, the Kiwanis club decided to abandon a project for erecting a memorial shaft, it clig thought that the money hus expended could serve the same purpose a be of actual benefit to the sity by using it in another way. Several suggestions were offered, but the one favoring the building of an auditorium was received with most accord. Now that the automobile club has come out in favor of the project action by the the automobile club has come out in favor of the project, action by her civic and commercial bodies is awaited. civic and commercial bodies is awaited. Of course, the Kiwanians do not propose to take the major share of erecting the building upon themselves as it would be entirely beyond their means, but htey pledge their full upport of it. As viewed now, in the light of a near peace, such action is entirely consistent with patriotism. The structure proposed would not by such a one as was decided upon by the city a short time ago, but would be such a one as was decided upon by the city a short time ago, but would be permanent in every detail. The cost is estimated from \$150,000 to \$250,000. Those in favor of putting an end to what is claimed to be the one defect in the city declare that the psychological moment is at hand. In the rapid progress to come after peace is declared they claim, that Chatlannogal

progress to come after peace is de-clared they claim that Chattanooga will be left behind unless she has a fitting auditorium.

A startling feature of the automo-bile club's meeting was the adoption of a resolution to have a committee named by the president to call on Gov.— Elect Roberts, after being iraugurated, and importune him to appoint a new board of highway commissioners. It is and importune him to appoint a new board of highway commissioners. It is claimed that the present body has been, to say the least, unconcerned about the completion of the Chattanooga-Nashville strip of the Dixie highway, if not positively hostile.

Some time in the near future the membership of the local club will motor to Gadsden, Ala., to meet the Birmingham club. Together they will arrange for the formation of a club in Gadsden.

Cameron, Okla.-Mr. T. L. Bostier, who lives near this place, recently made the following statement to a cisitor:

"I am sixty-nine years old, in pretty good health, able to work in the field. "Black-Draught has its part in that. have used it for about thirty years and know what a good medicine it is. "Much trouble and sickness comes from the liver and stomach. It can be avoided by taking Black-Draught. use it regularly for all liver and stomach troubles, for constipation and indigestion.

"Out here, where there is a lot of malaria, a liver medicine is a necessity and I have ever found one better than Thedford's Black-Draught.

"Black-Draught has done me and my family a world of good." The liver is one of the largest or-

gans of the body and one of the most important. It has very essential work to do, and

when anything hinders it in this work, rouble results and you are bothered with headache, nausea, constipation, or diarrhea, vomiting, indigestion, loss of appetite, etc., etc. Thedford's Black-Draught has, for
